<p><b>Pakistan</b></p>	<p>Since June 2018, when Pakistan made a high-level political commitment to work with the FATF and APG to strengthen its AML/CFT regime and to address its strategic counter terrorist financing-related deficiencies, Pakistan’s continued political commitment has led to significant progress across a comprehensive CFT action plan. The FATF recognizes Pakistan’s progress and efforts to address these CFT action plan items and notes that since February 2021, Pakistan has made progress to complete two of the three remaining action items on demonstrating that effective, proportionate and dissuasive sanctions are imposed for TF convictions and that Pakistan’s targeted financial sanctions regime was being used effectively to targeted terrorist assets. Pakistan has now completed 26 of the 27 action items in its 2018 action plan. The FATF encourages Pakistan to continue to make progress to address as soon as possible the one remaining CFT-related item by demonstrating that TF investigations and prosecutions target senior leaders and commanders of UN designated terrorist groups.</p> <p>In response to additional deficiencies later identified in Pakistan’s 2019 APG Mutual Evaluation Report (MER), Pakistan has made progress to address a number of the recommended actions in the MER and provided further high-level commitment in June 2021 to address these strategic deficiencies pursuant to a new action plan that primarily focuses on combating money laundering. <b>Panama</b>	<p>Since June 2019, when Panama made a high-level political commitment to work with the FATF and GAFILAT to strengthen the effectiveness of its AML/CFT regime, Panama has taken steps towards improving its AML/CFT regime, including by taking actions to identify unlicensed money remitters and increasing the use of FIU products to initiate or further ML investigations. However, Panama should take urgent action to fully address remaining measures in its action plan as all timelines have already expired. Panama should therefore continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) strengthening its understanding of the ML/TF risk of legal persons, as part of the corporate sector and informing findings to its national policies to mitigate the identified risks; (2) applying a risk-based approach to supervision of the DNFBP sector and ensuring effective, proportionate, and dissuasive sanctions against AML/CFT violations; (3) ensuring adequate verification, of up-to-date beneficial ownership information by obliged entities and timely access by competent authorities, establishing an effective mechanisms to monitor the activities of offshore entities, assessing the existing risks of misuse of legal persons and arrangements to define and implement specific measures to prevent the misuse of nominee shareholders and directors; and (4) demonstrating its ability to investigate and prosecute ML involving foreign tax crimes and</p>

The FATF therefore strongly urges Panama to swiftly complete its full action plan and address the above-mentioned strategic deficiencies.</p>

In June 2014, the FATF determined that Syria had substantially addressed its action plan at a technical level, including by criminalising terrorist financing and establishing procedures for freezing terrorist assets. While the FATF determined that Syria has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and will conduct an on-site visit at the earliest possible date.</p>

<b>Ghana</b>	<p>The FATF welcomes Ghana's significant progress in improving its AML/CFT regime. Ghana has strengthened the effectiveness of its AML/CFT regime and addressed related technical deficiencies to meet the commitments in its action plan regarding the strategic deficiencies that the FATF identified in October 2018.
