الدولة	المحاور الأساسية
Albania	<p>Since February 2020, when Albania made a high-level political commitment to work with the FATF and MONEYVAL to strengthen the effectiveness of its AML/CFT regime, Albania has taken steps towards improving its AML/CFT regime, including by enacting an adequate legal framework for violations of company and NPO registration obligations and implementing proportionate and dissuasive sanctions against entities that failed to declare their beneficial owners in the registry by the deadline. Albania should continue to work on implementing its action plan to address its strategic deficiencies, including by increasing the number of money laundering indictments that it brings to court for prosecution.</p> <p>The FATF expresses concern that Albania failed to complete its action plan, which fully expired in February 2022. The FATF strongly urges Albania to swiftly demonstrate significant progress in completing its action plan by February 2023 or the FATF will consider next steps if there is insufficient progress.</p> <p>Additionally, the FATF expresses concern that Albania's plans for a possible Voluntary Tax Compliance (VTC) programme do not comply with the FATF's principles for managing the AML/CFT implications of VTCs or FATF's best practices for such programmes. Albania should revise its draft VTC law and work with MONEYVAL to ensure that any VTC law passed or implemented has adequate safeguards to prevent the potential for abuse of the programme for money laundering or terrorist financing purposes.</p>
Barbados	<p>Since February 2020, when Barbados made a high-level political commitment to work with the FATF and CFATF to strengthen the effectiveness of its AML/CFT regime, Barbados has taken steps towards improving its AML/CFT regime, including by, demonstrating the ability to enforce breaches of BO requirements, strengthening the relationship between the FIU and LEAs, improving the ML database, and demonstrating progress in the investigation, seizure and forfeiture of cash and assets. Barbados should continue to work on implementing its action plan to address its strategic deficiencies, including by: (1) taking appropriate measures to prevent legal persons and arrangements from being misused for criminal purposes, and ensuring that accurate and up-to-date basic and beneficial ownership information is available on a timely basis; (2) demonstrating that ML investigations and prosecutions are in line with the country's risk profile; (3) further pursuing confiscation in ML cases, including by repatriating or sharing confiscated assets with other countries.</p>

Uganda	<p>Since February 2020, when Uganda made a high-level political commitment to work with the FATF and ESAAMLG to strengthen the effectiveness of its AML/CFT regime, Uganda demonstrated progress, including completing the ML/TF risk assessment of legal persons and arrangements. Uganda should continue to work to implement its action plan to address its strategic deficiencies, including by: (1) developing and implementing risk-based supervision of FIs and DNFBPs; (2) ensuring that competent authorities have timely access to accurate basic and beneficial ownership information for legal entities; (3) demonstrating LEAs and judicial authorities apply the ML offence consistent with the identified risks; (4) establishing and implementing policies and procedures for identifying, tracing, seizing and confiscating proceeds and instrumentalities of crime; and (5) addressing the technical deficiencies in the legal framework to implement PF-related targeted financial sanctions. The FATF continues to monitor Uganda's oversight of the NPO sector to encourage the application of the risk-based approach to supervision of NPOs in line with the FATF Standards and mitigate unintended consequences.</p> <p>The FATF strongly urges Uganda to swiftly implement its action plan to address the above-mentioned strategic deficiencies as soon as possible as all deadlines expired in May 2022</p>
The United Arab Emirates	<p>Since February 2022, when the United Arab Emirates (UAE) made a high-level political commitment to work with the FATF and MENAFATF to strengthen the effectiveness of its AML/CFT regime, the UAE demonstrated positive progress, including by providing additional resources to the FIU to strengthen the FIU</p>

Yemen	<p>Since February 2010, when Yemen made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Yemen has made progress to improve its AML/CFT regime. In June 2014, the FATF determined that Yemen had substantially addressed its action plan at a technical level, including by: (1) adequately criminalising money laundering and terrorist financing; (2) establishing procedures to identify and freeze terrorist assets; (3) improving its customer due diligence and suspicious transaction reporting requirements; (4) issuing guidance; (5) developing the monitoring and supervisory capacity of the financial sector supervisory authorities and the financial intelligence unit; and (6) establishing a fully operational and effectively functioning financial intelligence unit. While the FATF determined that Yemen has completed its agreed action plan, due to the security situation, the FATF has been unable to conduct an on-site visit to confirm whether the process of implementing the required reforms and actions has begun and is being sustained. The FATF will continue to monitor the situation, and conduct an on-site visit at the earliest possible date.</p>

Jurisdiction No Longer Subject to Increased Monitoring by the FATF	
Nicaragua	<p>The FATF notes Nicaragua’s progress in improving the elements of its AML/CFT regime covered by its action plan. Nicaragua has addressed technical deficiencies to meet the commitments of its action plan regarding strategic deficiencies in the areas that the FATF identified in February 2020. Nicaragua is therefore no longer subject to the FATF’s increased monitoring process.</p> <p>However, the FATF is strongly concerned by the potential misapplication of the FATF Standards resulting in the suppression of Nicaragua’s non-profit sector. Nicaragua should continue to work with GAFILAT to improve further its AML/CFT regime, including by ensuring its oversight of NPOs is risk-based and in line with the FATF Standards. Nicaragua is strongly encouraged to continue cooperating with GAFILAT on this issue.</p>
Pakistan	<p>The FATF welcomes Pakistan’s significant progress in improving its AML/CFT regime. Pakistan has strengthened the effectiveness of its AML/CFT regime and addressed technical deficiencies to meet the commitments of its action plans regarding strategic deficiencies that the FATF identified in June 2018 and June 2021, the latter of which was completed in advance of the deadlines, encompassing 34 action items in total. Pakistan is therefore no longer subject to the FATF’s increased monitoring process.</p> <p>Pakistan will continue to work with APG to further improve its AML/CFT system.</p>
